Trimless Downlight Installation Instructions

- 1 Cut ceiling opening to recommended dimension according to the product datasheet.

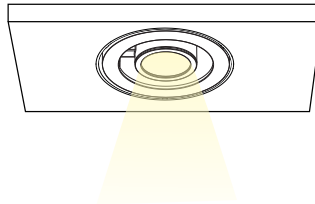

- 2 Place the mounting frame onto the ceiling. Fasten to ceiling with screws.

- 3 Patch over the mounting frame with stucco or plaster and paint per ceiling color and let it dry.

- 4 Connect the luminaire to the AC power supply. Insert the fixture in the mounting frame and twist, making sure the lugs engage fully in the latching slots. To remove, push upwards to release.

- 5 Restore the power supply.
